

K-LOVE Radio offers my family a station that has music,news and values that are positive,encouraging and biblical. They have pastors available for prayer and counseling. K-LOVE spreads messages of hope about Jesus and God uses it to change peoples lives for the better. If we turn the knob on the radio, there is no other place to turn that offers all of these services. It is a station that my six and eight year old girls love to listen to and I don't have to worry that they will hear anything negative or any bad language. K-LOVE is fully funded by the public and has spread into many states because the public wants and needs what K-LOVE has to offer. Please do not take away our station. Thank you and God bless you.
